

OIL PIT NETTING

PN SERIES

AUTOMOTIVE OIL PIT SAFETY PROTECTION

Custom load-rated engineered systems to fit your facility requirements.

Protects employees and visitors from injury or death from falling incidents.

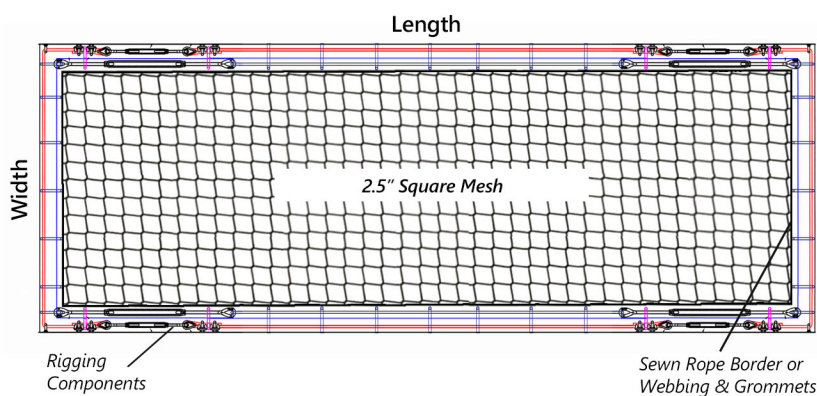

Reduces risks of expensive fines & elevated insurance costs.

FEATURES & BENEFITS

- Oil pit netting for auto repair, truck, bus & train maintenance
- Knotless netting with sewn rope border or webbing & grommets
- Mesh Size: 2.5" square mesh
- Heavy Duty Nets: 6,000 lb nets
- Rigging Components: cable, snap clips, turnbuckles, eyebolts, thimbles, cab lugs
- Design allows for effortless net movement for easy work accessibility
- Any open pit requires fall protection under both state & federal working at heights legislation

* Some welding of lugs may be required to install cables
